Alphabet Tree Template .....	64
------------------------------	----

# Introduction

**A**lphabet Trees offers an engaging and fun way for kids to master alphabet recognition and letter-sound associations. Knowledge of letters and their sounds is key to learning to read and write. In his book *Phonics From A to Z* (Scholastic, 2006, revised), reading specialist Wiley Blevins notes that the two best predictors of early reading success are alphabet recognition and phonemic awareness (Adams, 1990; Stanovich, 1992; Chall, 1996; Beck and Juel, 1995; Share, Jorm, Maclean, and Matthews, 1984). These two skills—knowing the letters and the sounds they represent and being able to identify these sounds with automaticity—are essential for early reading development.

The activities in this book give children lots of practice in writing uppercase and lowercase letters and reading words that begin with each letter. Picture clues provide them with support in identifying the words. In addition, the word spellings offer further opportunities to develop letter-sound associations and phonemic awareness skills.

You can use the alphabet trees with the whole class or in small groups. Or place them in a learning center for children to use independently or in pairs. The activities are ideal for children of all learning styles, ELL students, and for RTI instruction. And best of all, the alphabet trees take only a few minutes to complete, making them a quick way to integrate letter learning into the school day.

## How to Use the Alphabet Trees

Completing an alphabet tree is easy and fun. To begin, distribute copies of the activity page for the letter you want to teach. Point out the letter on the basket that's under the tree and name it. Then have children do the following:

- 1 Trace the uppercase and lowercase letters on the tree trunk. Then independently write the letter several more times on each line.
- 2 Complete the word spelling on each apple by writing the lowercase letter on the line at the beginning of the word. (Note that for the letter x on page 32, the blank line may appear at the beginning or end of the word stem on the apple.) Read the word, using the picture clue as an aid in identifying the word.
- 3 After filling in all the apples, read aloud the words again, pointing to each word while saying it.

**Check pages 6–8 for a list of words that can be created with each letter.**

## Activities to Extend Learning

Use these activities to give children additional practice with letter recognition and letter-sound associations.

**Make Your Own Tree:** Use the template on page 64 to create your own alphabet trees. To prepare, choose a letter to feature on the page. Print a model of that letter on the left side of the lines on the trunk, writing the uppercase letter on the top line and the lowercase letter on the bottom line. Write a different word that begins with the feature letter on each apple, using a blank line for the first letter of the word. If desired, draw or glue on a picture for the word next to its apple. Then copy a class supply of the page, distribute to children, and have them complete the activity. You might also give copies of the template to children so they can make their own alphabet trees.

**Alphabetical Apples:** Write each letter—uppercase or lowercase—on a red apple cutout (26 apples in all). Put the apples in a learning center. Then challenge children to put the apples in alphabetical order. When finished, have them refer to an alphabet chart to check their work.

**Alphabet Shape Books:** For shape books, mask the apples on a copy of the tree template (page 64) and make colored copies of the template on sturdy paper. Also, cut a class supply of plain paper into quarters. To make a book, have children cut out the tree, then

stack and staple 6–8 pages to the treetop. Ask them to choose a letter of the alphabet (or assign letters to children) and write the uppercase and lowercase versions of that letter on the trunk. Have children write one word that begins with their letter on each page and then illustrate the word. Invite children to read their shape books with partners.

**Alphabet Memory:** To make game cards for this familiar game, simply write letters of the alphabet on a supply of apple cutouts, creating a pair of apples for each letter. (Use either uppercase or lowercase letters.) Then invite children to use the cards to play Memory. Each time they find a matching pair of letters, they keep the match.

**Musical Word Walk:** Label sheets of paper with words that begin with different letters of the alphabet, checking that you have two words for each letter. Arrange the pages word-side down in a looped path. Then have children walk along the outside of the path while music plays. Periodically stop the music, have children pick up the nearest page, and then find another child with a word that begins with the same letter.

## Connections to the Common Core State Standards

The Common Core State Standards Initiative (CCSSI) has outlined learning expectations in English Language Arts for students at different grade levels. The activities in this book align with the following Foundational Skills for Reading for students in grades K–1. For more information, visit the CCSSI Web site at [www.corestandards.org](http://www.corestandards.org).

### Print Concepts

RFK.1, RF1.1. Demonstrate understanding of the organization and basic features of print.  
RFK.1a, RFK.1b  
RFK.1d

### Phonological Awareness

RFK.2, RF1.2. Demonstrate understanding of spoken words, syllables, and sounds (phonemes).  
RFK.2b, RFK.2c  
RF1.2b

### Phonics and Word Recognition

RFK.3, RF1.3. Know and apply grade-level phonics and word analysis skills in decoding words.  
RFK.3a, RFK.3b  
RF1.3g

### Fluency

RFK.4. Read emergent-reader texts with purpose and understanding.  
RF1.4. Read with sufficient accuracy and fluency to support comprehension.  
RF1.4a, RF1.4c
