

Subtracting 1 and 2

1-1 to 10-1

Name
Date

To parents

Starting with this page, your child will review subtracting the numbers 1 through 5. Please have your child use the number chart as a guide. Some answers will be 0. If your child has a difficult time grasping the concept of 0, allow the repeated exercises to help familiarize him or her with the idea.

■ Subtract the numbers below.

(1) $2 - 1 =$

(11) $4 - 1 =$

(2) $3 - 1 =$

(12) $3 - 1 =$

(3) $4 - 1 =$

(13) $2 - 1 =$

(4) $5 - 1 =$

(14) $1 - 1 =$

(5) $6 - 1 =$

(15) $9 - 1 =$

(6) $7 - 1 =$

(16) $6 - 1 =$

(7) $8 - 1 =$

(17) $1 - 1 =$

(8) $9 - 1 =$

(18) $10 - 1 =$

(9) $10 - 1 =$

(19) $8 - 1 =$

(10) $5 - 1 =$

(20) $7 - 1 =$

0 1 2 3 4 5 6 7 8 9 10

1-1 to 10-1

2-2 to 10-2

■ Subtract the numbers below.

(1) $3 - 2 =$

(11) $4 - 2 =$

(2) $4 - 2 =$

(12) $3 - 2 =$

(3) $5 - 2 =$

(13) $2 - 2 =$

(4) $6 - 2 =$

(14) $7 - 2 =$

(5) $7 - 2 =$

(15) $10 - 2 =$

(6) $8 - 2 =$

(16) $8 - 2 =$

(7) $9 - 2 =$

Name _____

Date _____

To parents

Learning to subtract the numbers 1 through 5 will build a foundation for more complicated subtraction skills. Please encourage your child to practice until he or she can complete the exercise easily without counting fingers or getting confused. When your child is unsure of his or her answer, encourage him or her to check the answer by adding the result to the number subtracted.

■ Subtract the numbers below.

(1) $4 - 3 =$

To parents

Starting with this page, your child will review subtraction formulas taught in this workbook. If your child is confused or seems to be having trouble, please encourage him or her to return to the section that deals with the number he or she finds difficult. Once your child can easily solve formulas including large numbers, he or she has mastered basic subtraction. Please offer lots of praise.
