

Mickey & Minnie's Pop-Up Valentine's Day Cards

Create your very own printable Mickey & Minnie pop-up cards for your favorite valentine.

Wiggling pop-up hearts are easy to make! See pop-up page for instructions.

What you will need:

Regular weight and card stock color printing paper, glue, clear tape, beading craft wire (approx. 20 gauge), large felt-tip marker and scissors.

Kids, have a grown-up help you with the scissors and craft wire.

Instructions:

Print out the pages with the pop-up card art onto card stock paper. Trim out the card art along the solid lines. Refer to the instructions for each pop-up card to assemble.

Print out the envelope pages onto the regular paper. To assemble the envelopes, follow the instructions on the envelope page.

Pop-Up Instructions:

STEP 1: To create the pop-up heart, fold the pop-up in half with the colored art facing out. Cut along the solid line at the bottom of the heart. Then, gently score along the dashed line and carefully fold the card in the opposite direction, keeping the center fold the same on the heart. The heart will fold down and into the center of the card. Align the corners of the card and fold along the dashed line.

STEP 2: To finish the card, apply glue to the white side of the pop-up paper while avoiding the back of the pop-up heart. Adhere to the white side of the front and back of the card. Allow time for the glue to dry and then fold in half while allowing the heart to fold into the center of the card. Your pop-up card is finished!

Instructions:

Print the envelope on regular weight paper. Trim along solid gray lines. Kids, have a grown up help you with the scissors.

Fold flaps in along the dashed gray lines and secure with tape.

Envelope is not intended for postal mail. Hand delivery recommended.

Pop-Up Instructions:

To create the pop-up, fold the pop-up in half with the colored art facing out. Cut along the solid line at the bottom of the "Valentine!". Then, gently score along the dashed lines and carefully fold the pop-up in the opposite direction while keeping the center fold the same on the "Valentine!". The "Valentine!" pop-up will fold into the center of the card. Apply glue to the areas shown in the example. Align the two lower corners and adhere the pop-up to the card. Allow the glue to dry.

When the glue is dry, gently fold the card closed allowing the "Valentine!" to fold inward to the center of the card.

To add the wiggling hearts, see instructions on this page.

Wiggling Pop-Up Hearts Instructions:

To create the springs for the hearts, cut 2 pieces of the beaded craft wire approximately 13 inches in length. Coil each wire around the felt tip marker to create a spring. Adhere one end of the spring with clear tape to the back of the heart. Then, adhere the other end of the spring to the inside of the card. You've made a pop-up heart that wiggles!
