Our family is like a tree that branches to the sky.

I'm growing big and tall and strong, and you,r the reason why! This flower was made specially with love from me to you. H's my way of saying "thanks" for everything you do.

You brighten up my days and hug me through the nights. When I'm with you I always know that it will be alright !

I love you way you hold me, and help me learn and grow. That's why I made this flower with my ten tiny toes!
