

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

8-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
6-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
9-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
10-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
2-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
5-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
1-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
7-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
3-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
4-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line

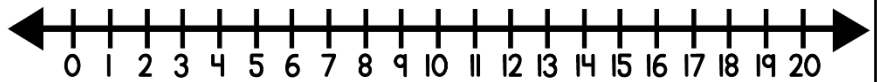

Subtraction

Name: _____

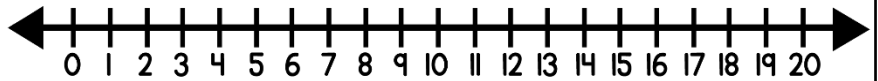

Use the number lines to complete the subtraction problems.

$10-3$

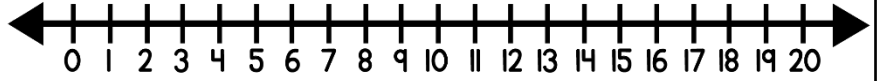

$10-7$

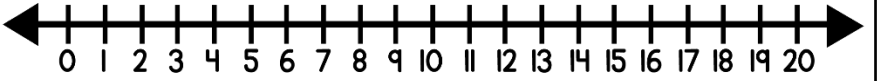

$10-1$

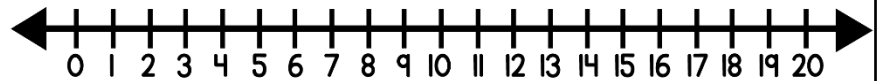

$10-5$

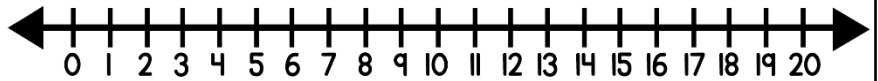

$10-9$

$10-2$

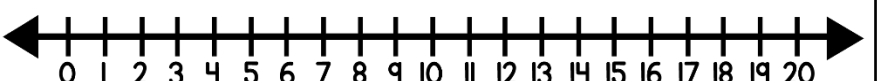

$10-6$

$10-10$

$10-4$

$10-8$

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

$11-5$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-8$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-1$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-4$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-9$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-2$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-7$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-3$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-6$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
$11-10$	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line

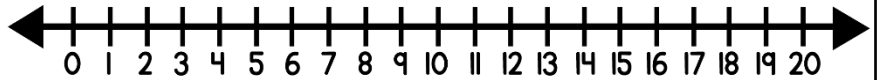

Subtraction

Name: _____

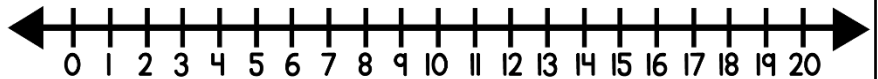

Use the number lines to complete the subtraction problems.

$12-5$

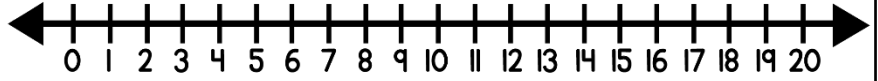

$12-8$

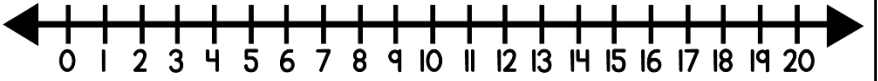

$12-1$

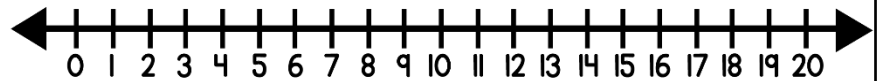

$12-4$

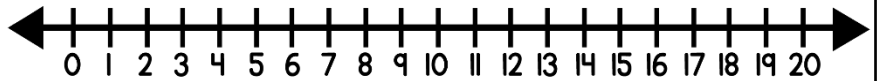

$12-9$

$12-2$

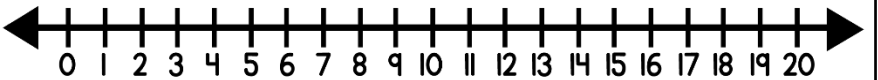

$12-7$

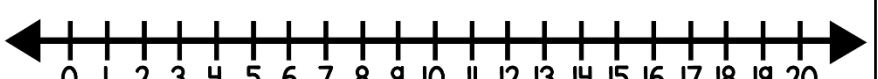

$12-3$

$12-6$

$12-10$

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

13-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
13-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

14-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
14-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

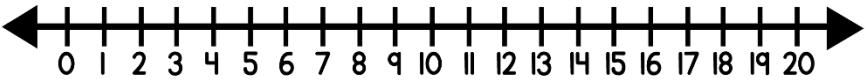

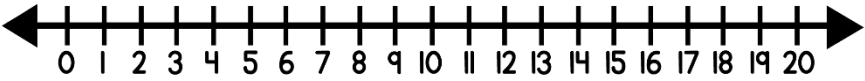

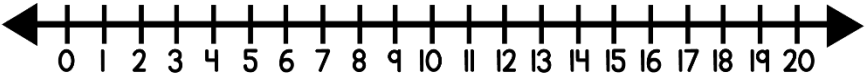

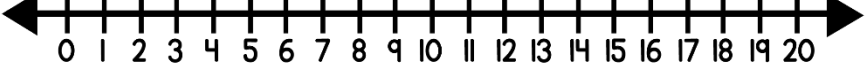

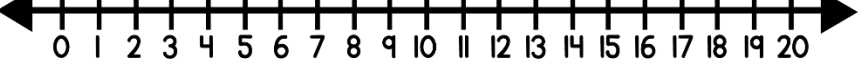

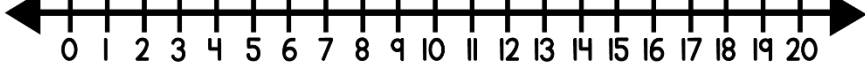

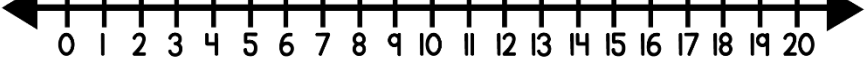

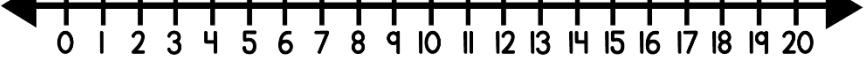

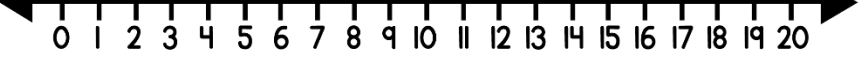

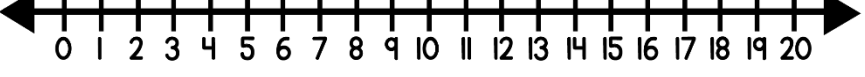

15-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
15-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

16-5	
16-8	
16-1	
16-4	
16-9	
16-2	
16-7	
16-3	
16-6	
16-10	

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

17-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
17-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

18-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
18-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

19-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
19-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

20-5	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-8	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-1	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-4	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-9	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-2	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-7	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-3	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-6	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.
20-10	A horizontal number line with arrows at both ends, marked with numbers from 0 to 20 at regular intervals.

Number Line Subtraction

Name: _____

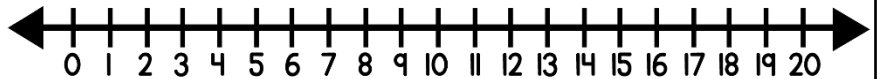

Use the number lines to complete the subtraction problems.

$11-5$

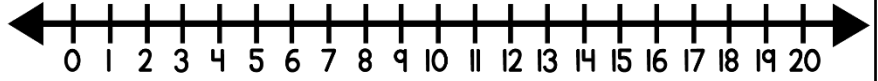

$13-8$

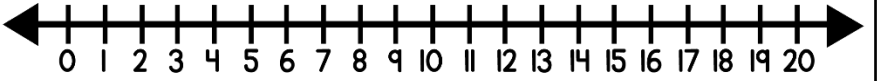

$15-1$

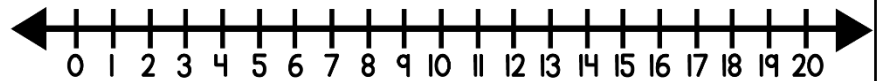

$17-4$

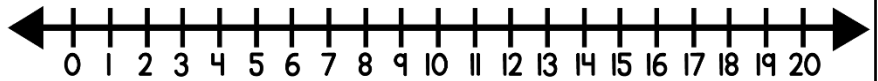

$19-9$

$12-2$

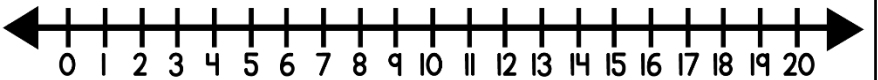

$14-7$

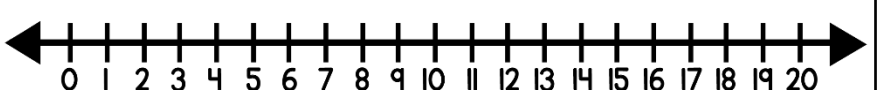

$16-3$

$18-6$

$20-10$

Number Line Subtraction

Name: _____

Use the number lines to complete the subtraction problems.

9-5	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
8-7	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
5-1	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
13-4	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
10-9	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
11-2	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
12-7	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
14-3	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
16-6	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.
18-10	A horizontal number line with arrows at both ends, marked with integers from 0 to 20.

Number Line

Name: _____

Subtraction

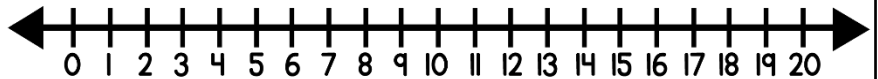

Use the number lines to complete the subtraction problems.
