Instructions

Print the pages you want to use for play. You can use these printable in many different ways. If you have younger students, just have fun playing grocery store.

Older students can use the food items, price tags, and receipts to make pretend grocery orders and add them up. Your student can even use the money to practice counting back change for customers.

You can add in the coupons when your student is ready to practice subtraction.

GINGERBREAD BAKERY

How to Set Up:

1. Print, cut, and laminate for durability!
2. Select stacking crates or shelf to create bakery.
3. Hang sign from above the "bakery," or on the "counter."
4. Collect bins to hold materials and place labels. Add in fun pipe cleaners, pompoms, candy canes and other sensory material! I love using oversized pompoms for whipped cream and felt for cookies!
5. Display Menu and Open/Closed sign.
6. Put out register with money and order form with pen.

How to create an awning

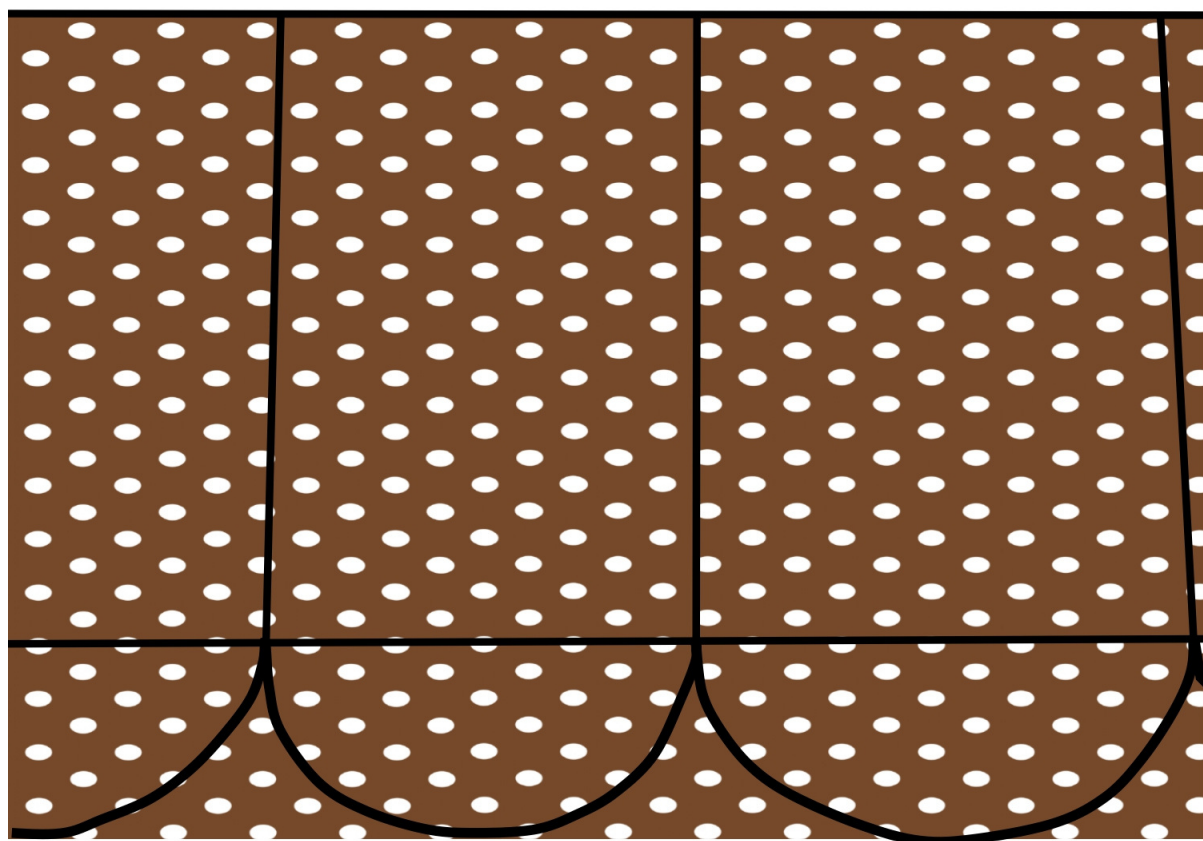

Building your awning: Cut out the awning pieces leaving the white edges on the middle piece. Attach the three pieces together covering the white edge with glue. Allow the awning to dry then trim off any excess white edges. Laminate for durability.

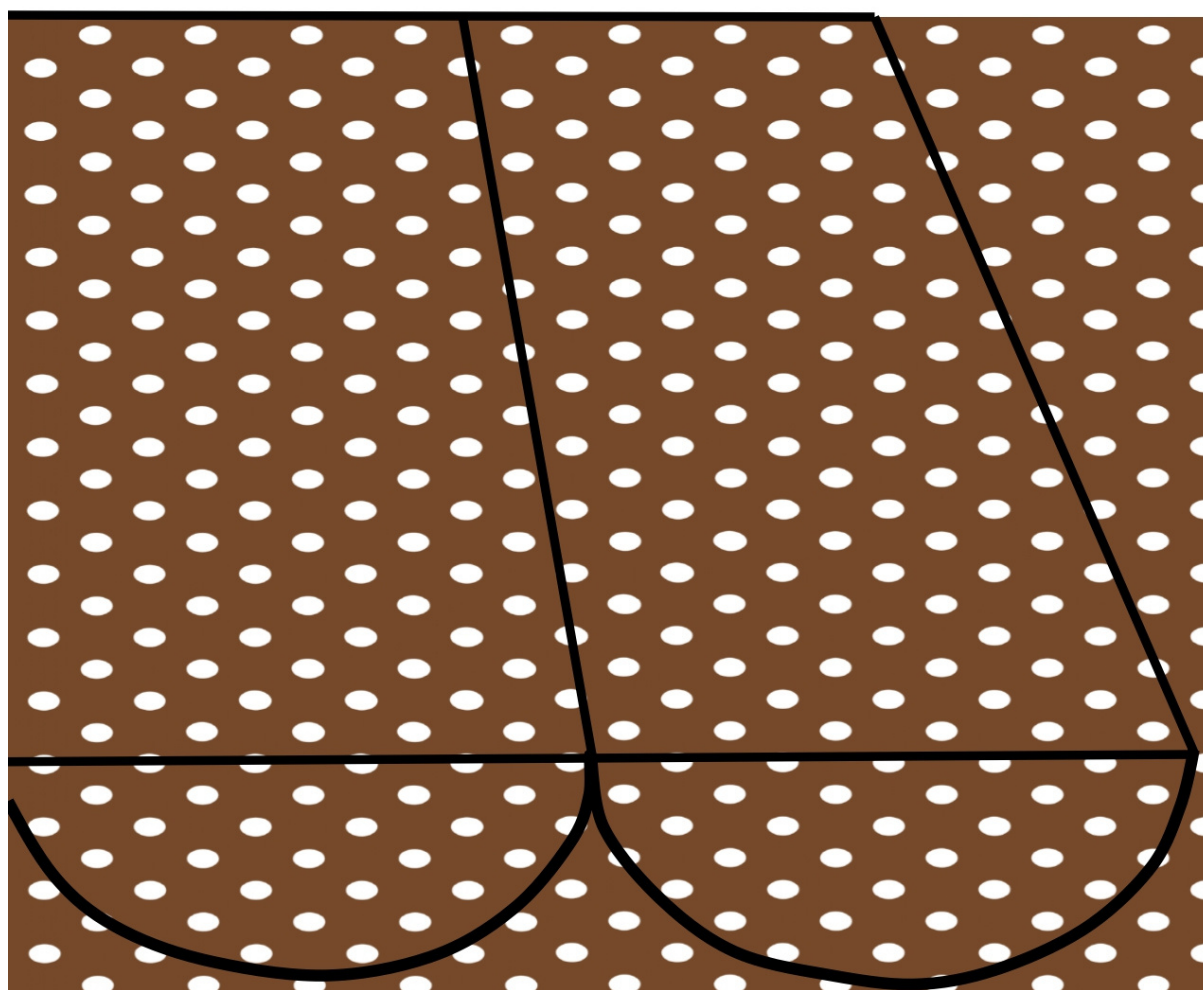

Hanging your awning: Gently fold the bottom scallops of the awning.

Cut a piece of poster board the width of the awning, add two inches to inches to the height of the poster board. Fold the top two inches of the poster board down. Attach the two inch fold over part of the poster board to the wall with tape or staples. Once your poster board is in place, use double sided tape or clear tape to attach the awing to the poster board.
