Princess Subtraction Game

Materials: White minuend and subtrahend cards, yellow difference cards, and 20 small objects for counting (e.g., glass gems, coins, mini erasers).

Directions: Print and cut the white and yellow number cards on the next pages. Print the Princess Subtraction Game playing board. You may wish to laminate both the number cards and the Princess Subtraction Game playing board for greater durability.

To play, have your child select two of the white number cards. Your child should put the greater number in the left minuend box and the lesser number in the middle subtrahend box.

Then, have your child count out objects equal to the number in the left minuend box and place them on the game board.

Next, have your child take away objects equal to the number in the right subtrahend box.

Finally, have your child find the yellow difference card that represents the number of objects remaining. Your child should place the yellow difference card in the difference box to the right of the equals sign.

Note: Depending on your child's skill level, you may want to start with just white numbers 1 to 5 or 1 to 10 rather than numbers up to 20.

1	2	3	4	5	<u>6</u>
7	8	<u>9</u>	10	11	12
13	14	15	16	17	18
19	20				

Note: The white cards on this page are the minuend (number from which another number is to be subtracted) and subtrahend (number that is subtracted from another) cards. Your child will select two white cards. Your child will place the larger number in the minuend box and the smaller number in the subtrahend box.

1	2	3	4	5	<u>6</u>
7	8	<u>9</u>	10	11	12
13	14	15	16	17	18
