

Animals of the Arctic

These are the types of animals you would find on the North or South Poles.

The narwhal has a long
spiraling horn that is
actually one of its teeth!

They live in cold waters of the Arctic.

Sometimes a narwhal will have
2 long horns instead of just one.

Narwhal tusks were once thought
to be unicorn horns.

Color this
narwhal and
its tusk!

NARWHAL

/NAR' wall/

The *Walrus* seems clumsy on land, but is perfectly at home in the water.
Color: yellowish brown, with lighter whiskers, and ivory tusks.

LLAMA

*Llamas brought from far Peru
Greet you in the CIRCUS zoo.*

D^esert Tortoise

Desert tortoises are well suited for life in the desert. They are able to get almost all of the water they need from the plants they eat.

This dainty creature is a *Fennec* or *North African Fox*. Color: yellowish tan, darker on back and top of head, lighter on face.
