

Practice Your Addition, 1 to 10 - Grid #1

★ Add the two numbers together for each problem. Write your answer in the blank space. Then add up the shapes and draw the answer. See Example 1.

<p>Example 1.</p> $2 + 2 = \underline{4}$ 	<p>2.</p> $4 + 2 = \underline{\quad}$ 
<p>3.</p> $1 + 4 = \underline{\quad}$ 	<p>4.</p> $2 + 4 = \underline{\quad}$ 
<p>5.</p> $4 + 3 = \underline{\quad}$ 	<p>6.</p> $7 + 1 = \underline{\quad}$ 
<p>7.</p> $6 + 3 = \underline{\quad}$ 	<p>8.</p> $6 + 2 = \underline{\quad}$ 

★ Now make up some more addition problems with your own shapes. Don't forget to color them in!

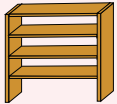

Digraphs Wh, Sh, Ch And Th

Digraphs are a combination of letters that when you put them together make one sound. For example *wh*, *sh*, *ch* and *th*.

Say the word in the pink box. Cross out the words in the blue box that don't have the same digraph sound.

READING PIANO KEYS

All musical instruments, including the piano, use SEVEN basic notes: A, B, C, D, E, F, G.

A piano has a total of 88 keys. These seven notes are played on the white keys, repeated over and over, but the pitch gets higher as they go from left to right.

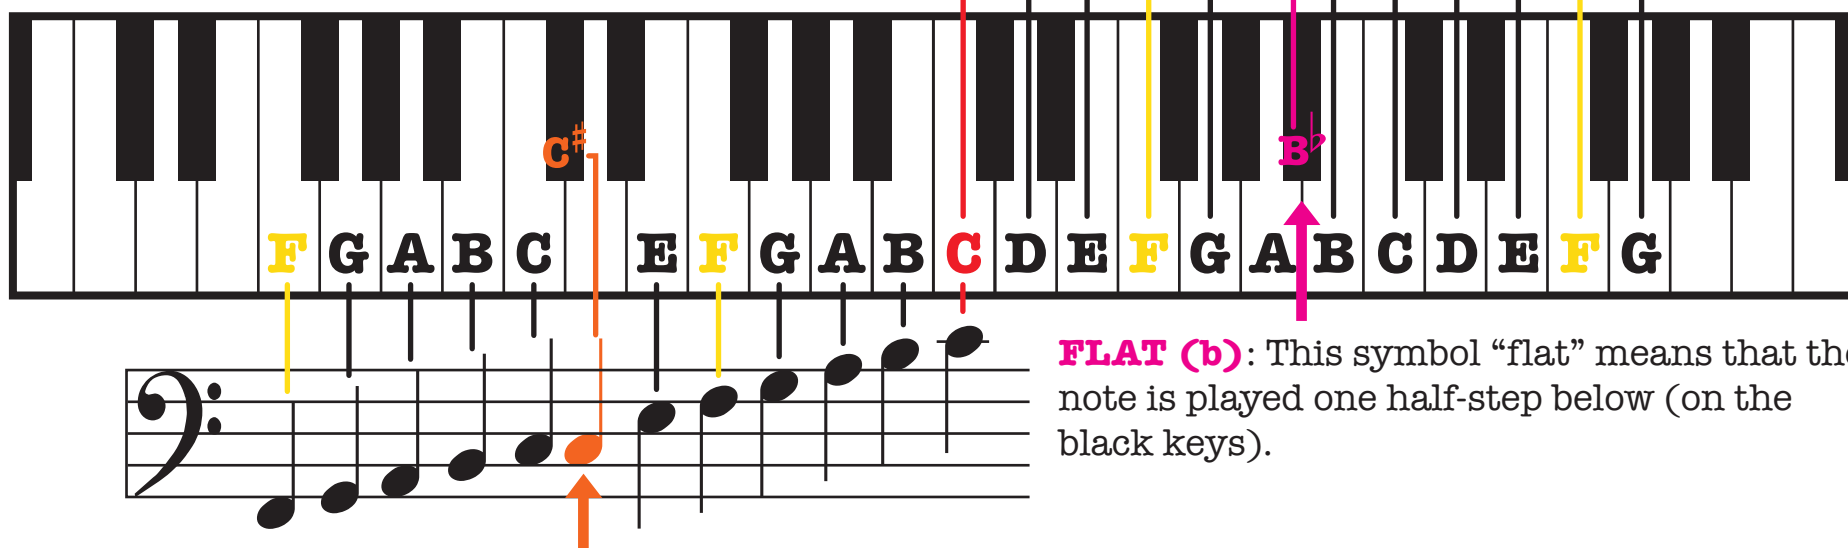

Cut out these markers and tape them to the correct keys on your piano as a guide!

VOCABULARY

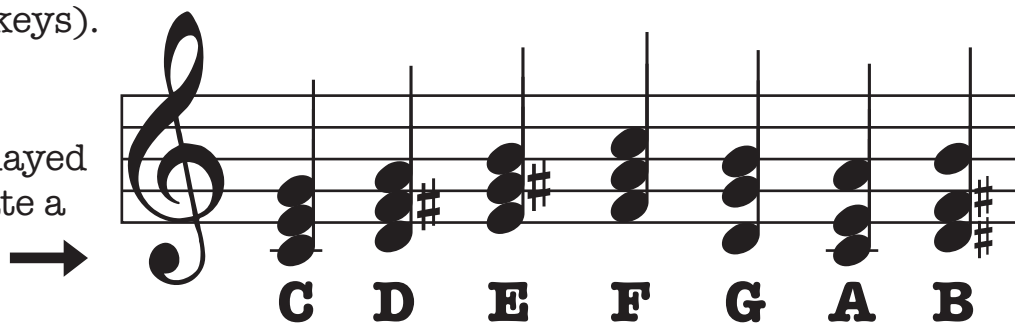

OCTAVE: An octave is a series of 8 notes in order. All notes can be played at many different octaves; it is the same note, but with a higher or lower pitch. The keys highlighted in yellow represent an octave.

FLAT (b): This symbol “flat” means that the note is played one half-step below (on the black keys).

SHARP (#): This symbol “sharp” means that the note is played one half-stop above (on the black keys).

CHORD: A chord is many notes played together, at the same time to create a harmony.

Graph the Weather!

What's the weather like out there today? Use the chart to keep track of the different weather events outside for a month. Color in a box next to the weather conditions you observe. Answer questions about the weather on the next page. After you are done, answer some questions about the weather.

MONTH: _____

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31

 Cloudy																																
 Sunny																																
 Rainy																																
 Snowy																																
 Windy																																
 Foggy																																

Graph the Weather!

Now that you have watched and recorded the weather conditions, read your graph to answer some questions about this month's weather!

MONTH: _____

How many days were CLOUDY? _____

How many days were SUNNY? _____

How many days were RAINY? _____

How many days were SNOWY? _____

How many days were WINDY? _____

How many days were FOGGY? _____

Which weather condition occurred the most amount of days? _____

Which weather condition occurred the least amount of days? _____

Were there more SUNNY days or more RAINY days? _____

Were there more FOGGY days or more SNOWY days? _____

How many more CLOUDY days were there than SUNNY days? _____

How many more RAINY days were there than SUNNY days? _____

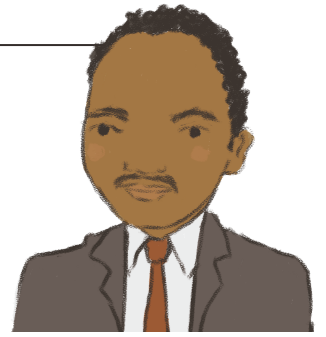

How many more CLOUDY days were there than WINDY days? _____

Which weather condition do you predict will occur the most days next month? _____

Name _____

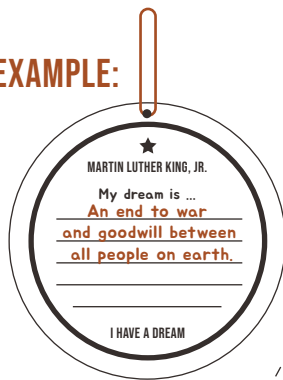

Date _____

CELEBRATE! MARTIN LUTHER KING, JR. DAY

Write your dream or wish for a better world on the lines below. Print more and write as many as you can. Ask a grownup to help cut out and attach a string to each circle. Hang them on a bulletin board or wall, on a shelf or on a door knob. You can also attach them to a ribbon to make a banner. If the weather is good, you can decorate a tree or fence with them!

EXAMPLE:

**CUT ALONG
THE DOTTED LINE**
For best results,
print on cardstock
or thick paper.

Easy Math Word Problems

It's make-your-own hamburger night!
Use addition or subtraction to solve the word problems.

Hamburger #1

Place 1 slice of onion on the burger. Add 2 lettuce leaves on top of the onion. Put 2 slices of tomato on top of the lettuce. How many items are there altogether on top of the burger?

Hamburger #2

Put 1 bun on a dish. Put 2 hamburger patties on the bun. Add 1 tomato slice and 1 lettuce leaf on top of the burgers. Place 1 bun on top. How many parts to the hamburger sandwich are there altogether?

Hamburger #3

This hamburger already has a whole bunch of stuff on it but it's not the way you want it. The hamburger has 5 lettuce leaves on it but you only want 2. How much less lettuce do you need?

Hamburger #4

Another hamburger is already made. It has 1 slice of tomato but you want 6 slices of tomato. How many more slices of tomato do you need?

Number Order: Least to Greatest

Find the Rhyme

Read the poem and fill in the missing rhyming words using the help of the word bank.

Cats on a Mat

Sid the cat was round and fat.
He slept all day on a small blue

Friendly Rex said, "Hey, let's play!"
But Sid just slept the day away.

Rex was sad that Sid was asleep.
He got so mad, he started to

Then Rex said, "Wait, I don't have to be blue.
I'll play by myself. That's what I'll do!"

He jumped in his milk and made a splash!
He climbed up a lamp and made it.....!

Sid woke up and had a stretch.
He looked around at the great big mess.

"Let's play!" he said, "This looks like fun!"
"No," said Rex, "this day is done."

Rex yawned and laid down his head.
"Oh well," said Sid, getting back in

The friends purred the whole night through,
sleeping on the mat that was right for two.

Color And Make Your Own Tangrams

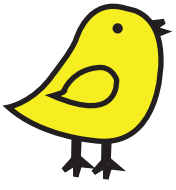

Tangram is an ancient Chinese geometric puzzle where a square is cut into seven pieces that can be arranged to create different figures.

Objective of the puzzle : To form a specific shape using all seven pieces, which may not overlap.

1. Print this pattern on cardstock or thick paper so it can be reused.
2. Cut out the pieces with the help of a parent.
3. Print out a tangram pattern card.
4. Ask your child to use all seven of these pattern pieces to recreate the picture on that pattern card.

TIP: Once your child learns to create the figure using a pattern card, ask him to create it again on plain paper, without using the pattern card as a guide.

THE 3 LITTLE PIGS

Once upon a time, there were three little pigs who were sent out by their mother to make their place in the world. As they reached the edge of the forest, they decided it would be a good place to build their homes. Peter was the oldest, and the laziest of the three. He chose to build his house quickly out of straw so he could sleep for the rest of the day. Joe was the second oldest, and just a bit less lazy than Peter. He decided a straw house would not be warm enough, but he didn't want to work that hard on building a house, either. Joe decided to build his home out of wood, and spent the rest of the day watching television. Mark was the youngest and the hardest working of the bunch. He remembered what his mother had told him about succeeding by working hard, and decided to take time to build a sturdy house out of brick. Although it was hard work, after two days he had built a nice brick home. His brothers laughed at him for wasting precious time that could have been spent napping or watching TV.

Later that week, a big bad wolf came knocking on Peter's straw hut. "Let me in little pig!" cried the wolf. "Not by the hair on my chinny-chin-chin," mocked Peter. The wolf growled, "Then I'll huff and I'll puff and I'll blow your house down!" Since the house was built out of straw, it quickly blew apart. Peter dashed down to Joe's home and locked the door behind him. "Let me in little pigs!" yelled the wolf. "Not by the hair on our chinny-chin-chins," said the brothers. "Then I'll huff and I'll puff and I'll blow your house down!" the wolf replied. Again, the weak home of sticks blew apart, and the brothers ran to Mark's sturdy house to hide. The wolf once again demanded to be let in, but this time a confident Mark said, "Go away wolf. You could never blow my house down!" The wolf huffed and puffed like he never had before and tried to blow the brick house down. After failing many times, the poor wolf sulked back into the forest. The two older brothers thanked Mark for saving the day, and promised to be a little less lazy next time.

MONEY WORD PROBLEMS #1

Solve the following money word problems.

Kenny has a ten dollar bill, a five dollar bill and three quarters in his wallet.
How much money does Kenny have in all?

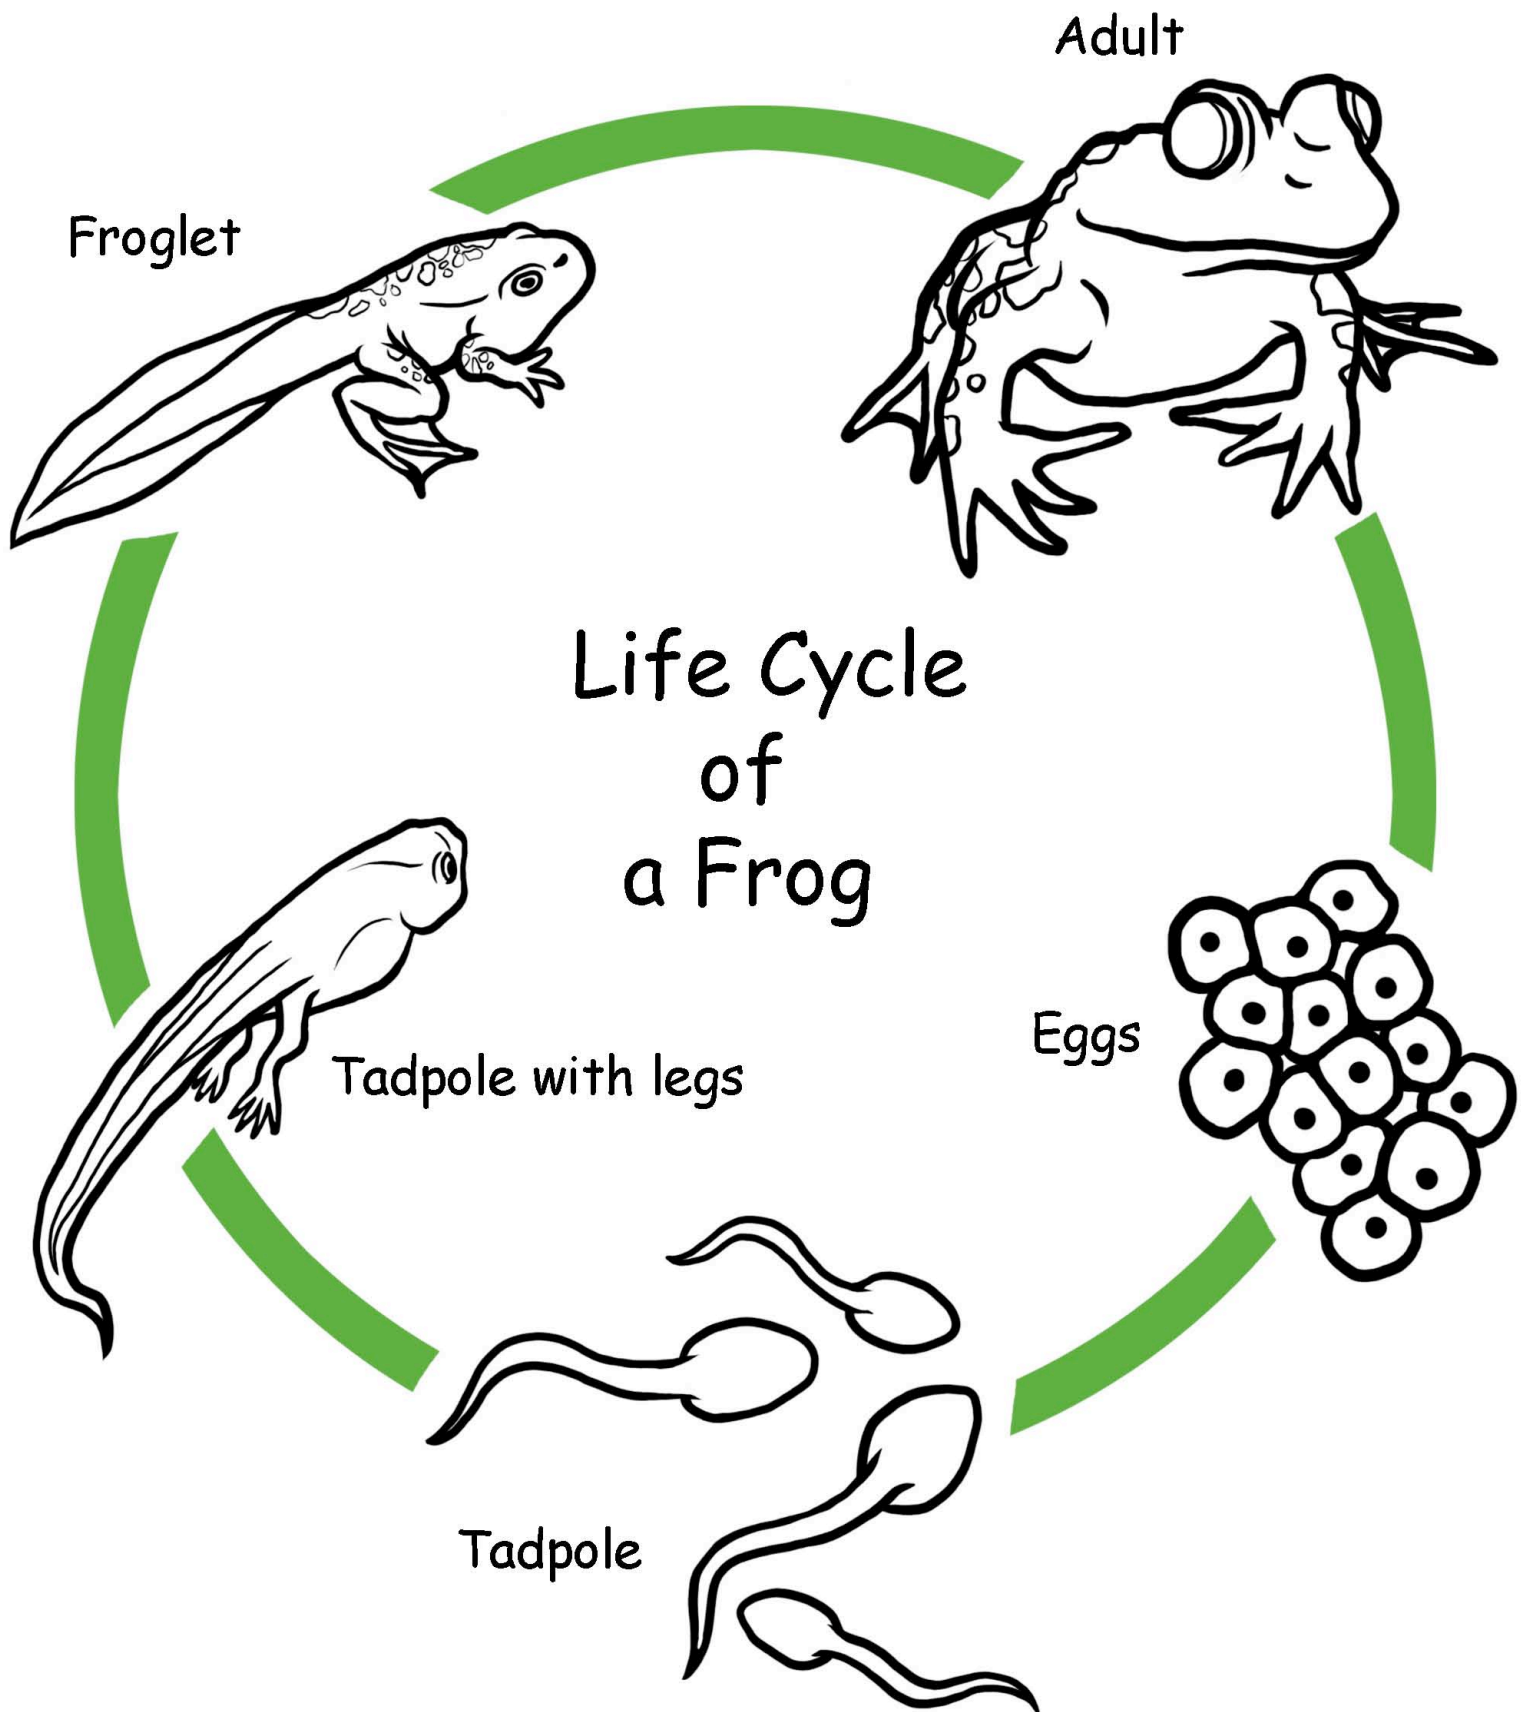

Jane has a ten dollar bill, a quarter, a dime, three nickels and two pennies in her purse.
How much money does Jane have in all?

Pablo has \$12.75 in his wallet. His friend Terry gives him two one dollar bills, two quarters, a dime and three nickels.
How much money does Pablo have now?

Alice has \$15.50 in her purse. She spends a five dollar bill, a one dollar bill, three quarters, two dimes and eight pennies.
How much money does Alice have left?

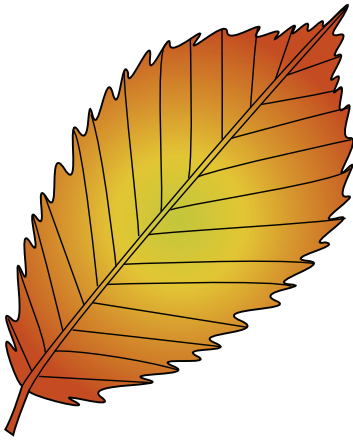

Tom has a five dollar bill, five one dollar bills, three quarters and two dimes in his wallet.
James has \$10.50.
Which boy has MORE money?

Gwen has a ten dollar bill, a five dollar bill, two one dollar bills, four dimes and eight pennies in her purse. Jamie has \$14.35.
Which girl has LESS money?
