Sara was with her mom in the parking lot at the mall. Guess what? They couldn't find their car!

"Hmm," Sara texted her friend. "The parking lot is full. There are 3 rows of cars and each row has 5 cars."

"How can you NOT find your car? That's not many cars," replied Jen.

"Yeah, but they are all the same type of car. AND they are all blue. Weird. This is like a bad dream," replied Sara.

"That's not possible," replied Jen. "I bet they all have four tires."

Jen was correct. All the cars had four tires. How many tires were in the parking lot? Bet you can't figure THAT out! Good luck!
