#### Round the numbers to the nearest 10!

If the **ones** number is 5 or greater, round up to the nearest 10. If the **ones** number is 4 or less, round down to the nearest 10.

 $18 \rightarrow 20$   $13 \rightarrow 10$

# Round 'Em Up!

Round the numbers to the nearest ten.

#### Rounding to the nearest ten

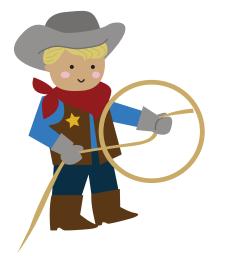

If the ones number is 5 or greater, round up to the nearest ten. Example:  $1\underline{7} \rightarrow 20$ If the ones number is 4 or less, round down to the nearest ten. Example:  $1\underline{2} \rightarrow 10$ 

#### Rounding to the nearest hundred

If the tens number is 5 or greater, round up to the nearest hundred. Example:  $161 \rightarrow 200$  If the tens number is 4 or less, round down to the nearest hundred. Example:  $118 \rightarrow 100$ 

486 <u>500</u>	266	521	651
824	148	378	234
333	613	883	949
551	195	728	762

Here's a little rhyme to help you remember how to round numbers: **5 or more, raise the score** 

4 or less, let it rest

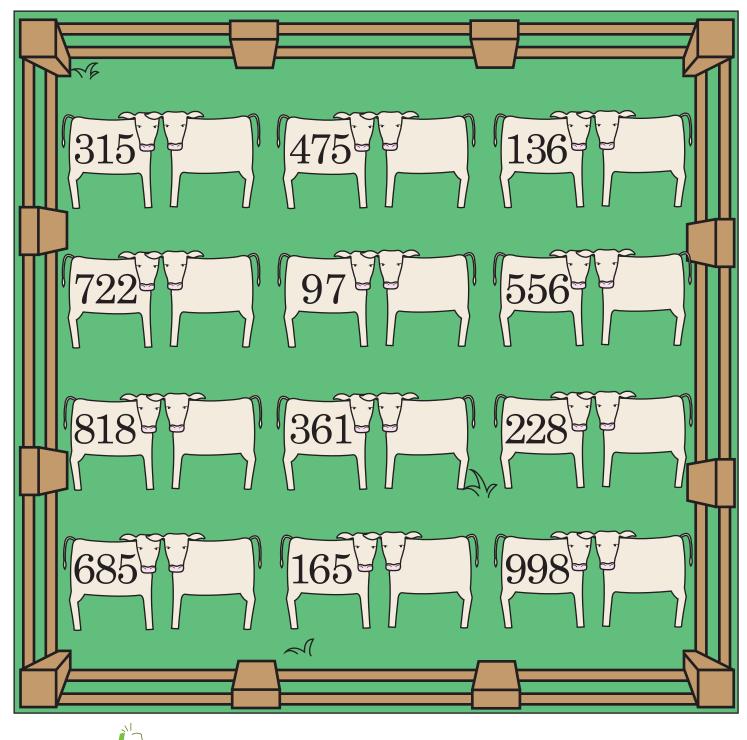

#### Round the numbers to the nearest 100.

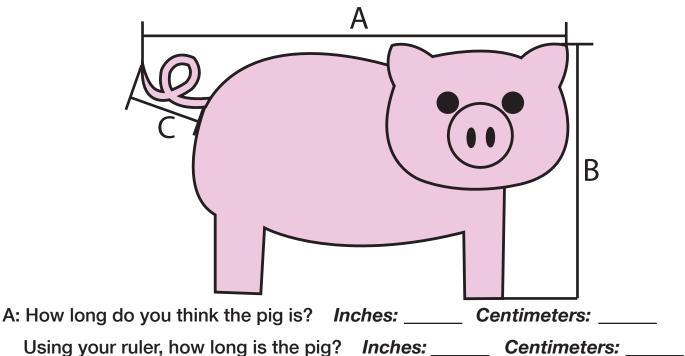

If the **tens** number is 5 or greater, round up to the nearest 100. If the **tens** number is 4 or less, round down to the nearest 100.

 $1\underline{8}5 \rightarrow 200 \quad 1\underline{3}6 \rightarrow 100$ 

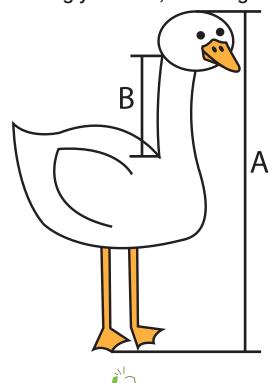

## MEASURING ON THE FARM!

First guess how long you think the measurements are. Then use your ruler to measure to the nearest whole number.

B: How tall do you think the pig is? *Inches:* Centimeters: Using your ruler, how tall is the pig? Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_

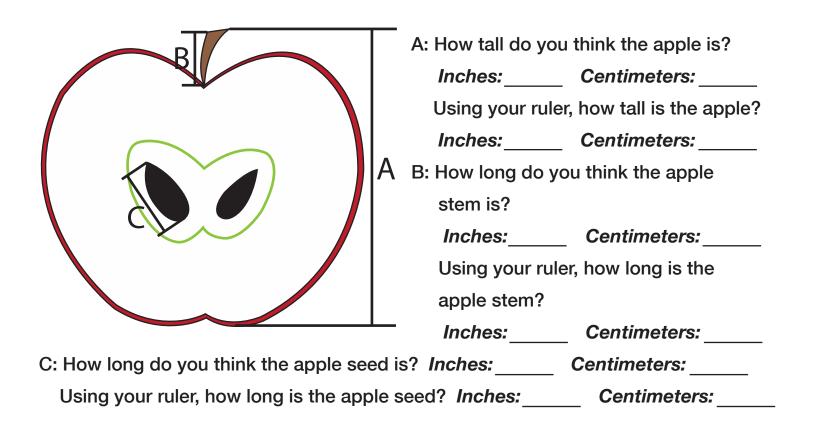

C: How long do you think the pig's tail is? *Inches:* Centimeters: Using your ruler, how long is the pig's tail? Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_

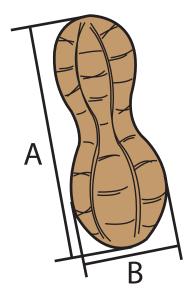

A: How tall do yo	ou think the duck is?	
Inches:	_ Centimeters:	
Using your ruler, how tall is the duck?		
Inches:	_ Centimeters:	
B: How long do y	you think the duck's neck is?	
Inches:	Centimeters:	
Using your ruler, how long is the duck's n		
Inches:	Centimeters:	

### **MEASURING FOOD!**

First guess how long you think the measurements are. Then use your ruler to measure to the nearest whole number.

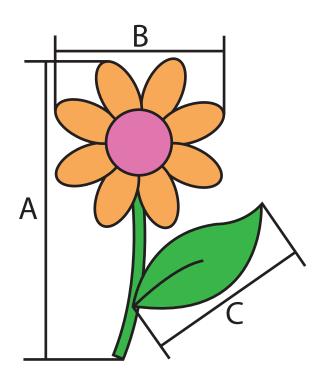

A: How long do you think the peanut is? Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_ Using your ruler, how long is the peanut? Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_ B: How wide do you think the peanut is? Inches: Centimeters: Using your ruler, how wide is the peanut? Inches: Centimeters:

## MEASURING NATURE!

First guess how long you think the measurements are. Then use your ruler to measure to the nearest whole number.

- A: How tall do you think the flower is? Inches: Centimeters: Using your ruler, how tall is the flower? Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_ B: How wide do you think the flower is? Inches: Centimeters: Using your ruler, how wide is the flower? Inches: Centimeters: C: How long do you think the flower's leaf is? Inches: Centimeters: Using your ruler, how long is the flower's leaf?
  - Inches: \_\_\_\_\_ Centimeters:

A: How tall do you think the tree is?

Inches: Centimeters:

Using your ruler, how tall is the tree?

Inches: Centimeters:

B: How long do you think the tree branch is?

Inches: \_\_\_\_\_ Centimeters:

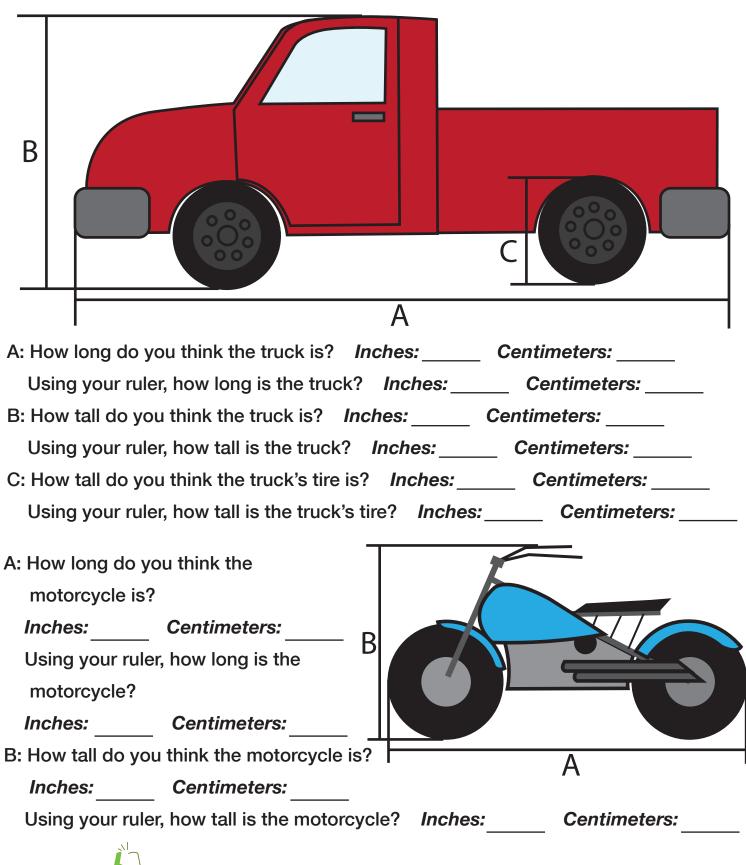

Using your ruler, how long is the tree branch?

Inches: \_\_\_\_\_ Centimeters: \_\_\_

Α

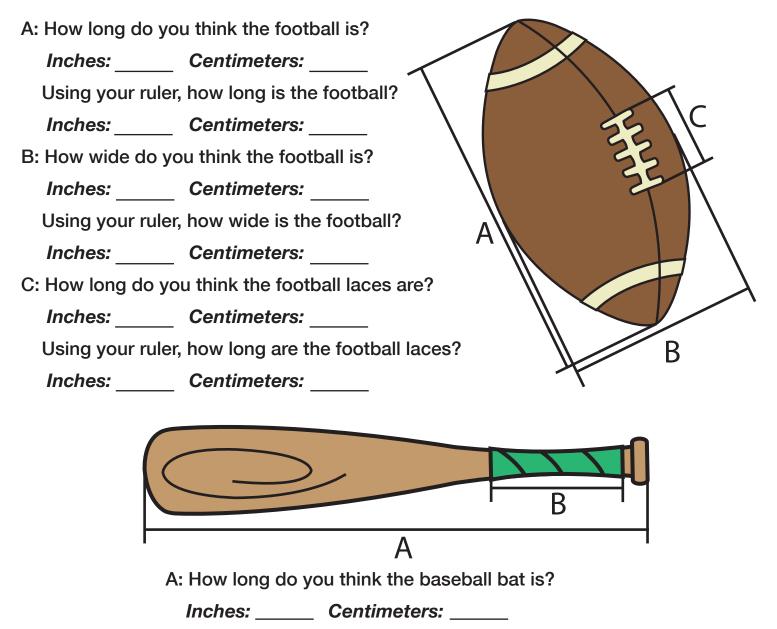

### MEASURING ON THE ROAD!

First guess how long you think the measurements are. Then use your ruler to measure to the nearest whole number.

### **MEASURING SPORTS!**

First guess how long you think the measurements are. Then use your ruler to measure to the nearest whole number.

Using your ruler, how long is the baseball bat?

Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_

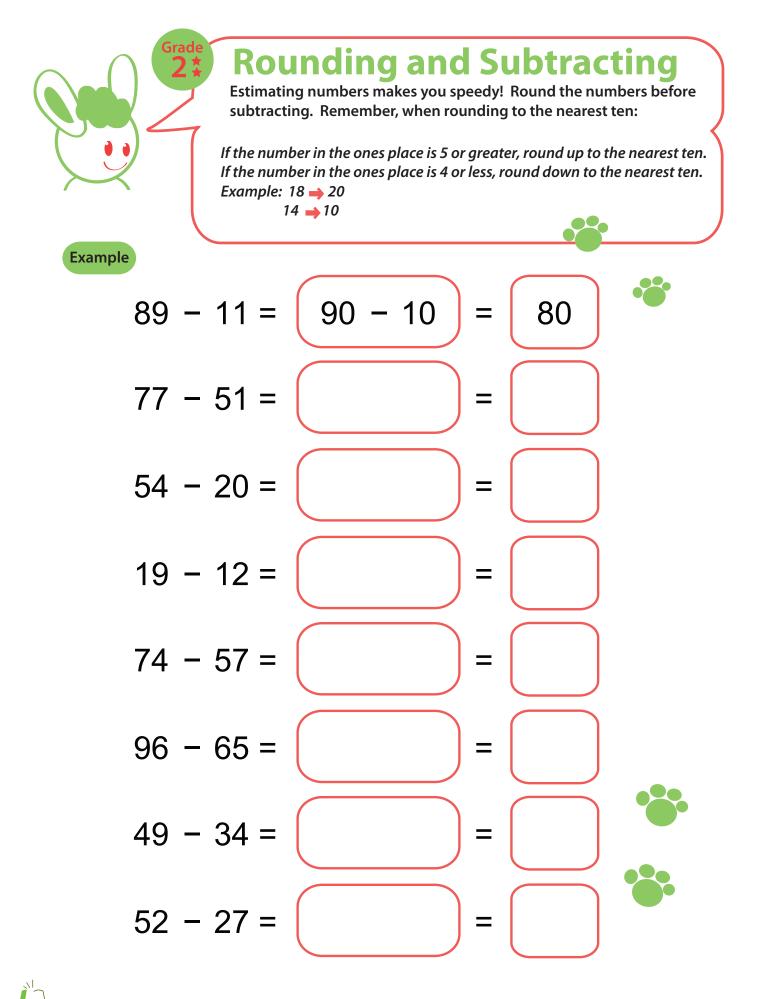

B: How long do you think the baseball bat grip is?

Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_

Using your ruler, how long is the baseball bat grip?

Inches: \_\_\_\_\_ Centimeters: \_\_\_\_\_

#### **Rounding and Subtracting**

Estimating numbers makes you speedy! Round the numbers before subtracting. Remember, when rounding to the nearest ten:

If the number in the ones place is 5 or greater, round up to the nearest ten. If the number in the ones place is 4 or less, round down to the nearest ten. Example:  $18 \Rightarrow 20$  $14 \Rightarrow 10$ 

91 - 62 = 90 60 30 65 - 24 = 87 - 66 = 70 - 52 = 98 - 89 = 83 - 71 = 99 - 20 = \_ 42 - 33 =

Grade

Example

2±

#### **Rounding and Subtracting**

Estimating numbers makes you speedy! Round the numbers before subtracting. Remember, when rounding to the nearest ten:

If the number in the ones place is 5 or greater, round up to the nearest ten. If the number in the ones place is 4 or less, round down to the nearest ten. Example:  $18 \Rightarrow 20$  $14 \Rightarrow 10$ 

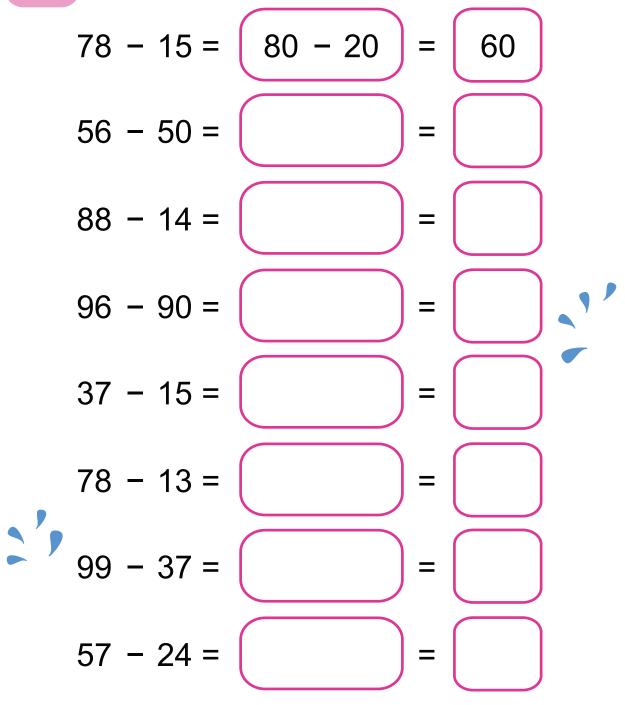

Example

11

Grade

2‡

Estimate the sums by rounding the numbers to the nearest hundred first and then adding them together. Don't forget to show your work!

Estimate	che sum
$\begin{array}{ccc} 210 \longrightarrow & 200 \\ +378 \longrightarrow +400 \\ \hline 600 \end{array}$	$\begin{array}{c} 128 \rightarrow \\ +413 \rightarrow + \end{array}$
$\begin{array}{c} 684 \rightarrow \\ +245 \rightarrow + \end{array}$	$321 \rightarrow +518 \rightarrow +$
$\begin{array}{c} 467 \rightarrow \\ +376 \rightarrow + \end{array}$	$\begin{array}{c} 850 \rightarrow \\ +105 \rightarrow + \end{array}$
$941 \rightarrow +223 \rightarrow +$	$754 \rightarrow +285 \rightarrow +$

## Front-End Estimation

Front-end estimation only uses the numbers in the very left column. If you are working with a 2 digit number, you will round to the nearest tens place, and if you are working with a 3 digit number, you will round to the nearest hundreds place.
